

Closed Private Schools

IMPORTANT: VCPE DOES NOT STORE RECORDS. VCPE may have information on the custodian of school records for some closed schools. If your school is closed and it is not on this list then it did not hold a state recognized accreditation when it closed and was not affiliated with VCPE. State recognized accredited schools are required to report the custodian of the school records to VCPE and the custodian is responsible for contacting VCPE if the information changes. Non accredited schools may report the custodian but are not held to a requirement. If a closure date was provided, then the date is indicated. Contact vcpe.office@gmail.com for further information on any closed private school on this list.

| Closed Private School Name | State Recognized? | Date Closed? |
|--|----------------------|-----------------|
